Amendment No. 2 to the Cooperative Project Agreement

A Health Facility Improvement Project Between:
The Alaska Native Tribal Health Consortium and
The Village of Clarks Point, Alaska
Project No. AN 04-G92
November 2005

AMENDMENT NO. 2
TO THE
COOPERATIVE PROJECT AGREEMENT
HEALTH FACILITY IMPROVEMENT PROJECT
VILLAGE OF CLARKS POINT, ALASKA

PROJECT NO. AN 04-G92

To complete this project, ANTHC and the Village of Clarks Point mutually agree to the terms and conditions contained in this Amendment.

**AMENDMENT NO. 2
TO THE
COOPERATIVE PROJECT AGREEMENT
HEALTH FACILITY IMPROVEMENT PROJECT
VILLAGE OF CLARKS POINT, ALASKA**

PROJECT NO. AN 04-G92

**DATE OF DOCUMENT:
November 2005**

A. INTRODUCTION

Throughout this Amendment these entities are referred to as follows:

Village of Clarks Point	=	Village
Alaska Native Tribal Health Consortium	=	ANTHC
Bristol Bay Area Health Corporation	=	BBAHC
Bristol Bay Economic Development Corporation	=	BBEDC
Denali Commission	=	Commission
Indian Health Service	=	IHS
Community Development Block Grant	=	CDBG
Cooperative Project Agreement	=	CPA

On Feb. 6, 2004, ANTHC and BBAHC executed a CPA authorized by the Denali Commission to complete design studies and construction planning for a new health clinic in the Village of Clarks Point, Alaska. No construction was performed under this project phase. The project was funded by Denali Commission Financial Assistance Award Project No. 0100-DC-2003-I13, Addendum B, dated January 2004.

On Oct. 12, 2004, ANTHC, BBAHC, and the Village of Clarks Point executed an Amendment No. 1 to the CPA that performed the following:

- Revised scope of work to include additional survey services, an archeological survey, and an environmental assessment
- Increased project funding from \$80,000 to \$100,000; additional funds were derived from Denali Commission Financial Assistance Award Project No. 0071-DC-2002-I24, dated April 2002
- Changed design management from BBAHC to ANTHC

B. REVISION OF SCOPE OF PROJECT

This Amendment expands the scope of work to include clinic construction. Activities include site preparation, materials and equipment, construction, and labor.

(Amendment No. 1 cited the construction phase of this project as ANTHC Project No. AN 04-GB8; that was incorrect. This Amendment No. 2 initiates the construction phase.)

C. REVISION OF PROJECT FUNDING

This Amendment adds the following:

- \$331,600 of Commission funding, via Denali Commission Financial Assistance Award Project No. 0100-DC-2003-II13,
Addendum B, dated January 2004
- \$224,000 of Commission funding, via Denali Commission Financial Assistance Award Project No. 185-05, dated August 2005
- \$100,000 of Bristol Bay Economic Development Corporation funding, via Denali Commission Financial Assistance Award Project No. 185-05, dated August 2005
- \$80,000 of Community Development Block Grant funds, via Denali Commission Financial Assistance Award Project No. 0100-DC-2003-II13, Addendum B, dated January 2004
- \$68,027 of 2004 Indian Health Service Tribal Equipment funds, via Denali Commission Financial Assistance Award Project No. 185-05, dated August 2005
- \$754,873 of reprogrammed Commission funding, via Denali Commission Financial Assistance Award Project No. 185-05, Amendment No. 2, dated September 2005
- \$48,000 of Community Development Block Grant funds
- \$36,847 of Commission funding, via Denali Commission Financial Assistance Award Project No. 185-05, Amendment No. 2, dated September 2005

A revised project funding sources table is provided below.

Job Type	Scope of Work	Qty	Unit Cost	Total Cost	Funding Sources									
					Denali FY02	Denali FY03	Denali FY05	BBEDC	CDBG	IHS FY04	Denali FY05	Denali FY05	CDBG	
M-DS clinic	Design	1	LS	100,000	100,000	20,000	80,000							
M-CL clinic	Construct	1	LS	1,643,347	1,643,347		331,600	224,000	100,000	80,000	68,027	754,873	36,847	48,000
	Project Total			\$20,000	\$411,600	\$224,000	\$100,000	\$80,000	\$68,027	\$754,873	\$36,847	\$48,000		

D. PROJECT ADMINISTRATION

Construction management shall be accomplished by ANTHC or its Contractor. ANTHC shall take responsibility for all project oversight, technical assistance, and management of the construction process. Project construction shall be through ANTHC construction contract.

E. SUSTAINED OPERATIONS CONSIDERATIONS

The Village of Clarks Point will assume ownership and responsibility for operating and maintaining equipment and facilities provided by this project.

F. NATIONAL HISTORIC PRESERVATION ACT REQUIREMENTS

The National Historic Preservation Act (NHPA) provides for cultural resources identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials. The NHPA also requires tribes to be consulting parties if archeological discoveries are made during construction.

The Native American Graves Protection and Repatriation Act (NAGPRA) contains stipulations regarding the appropriate treatment and disposition of human burials, funerary, and associated items discovered on Federal lands or Indian Allotments. NAGPRA recognizes the inherent rights and claims of the Native people but often is inapplicable to ANTHC projects. For this reason, as a policy ANTHC recognizes the inherent rights and claims of the tribal entity when human remains and associated items are uncovered through construction projects.

Therefore, if construction for this project results in the discovery of ancient cultural items (i.e., human burials, associated items, and/or archaeological artifacts) ANTHC will ensure that the Clarks Point Village Council will be a consulting party. In addition, the following responsibilities are assumed by the project participant in order to comply with the NHPA, NAGPRA, and ANTHC policy recognizing inherent rights and claims:

- Identifying any known or reported archaeological site, artifact, or ancient human remains to avoid unnecessary damage to sensitive resources.
- Delaying construction in the vicinity of a discovery until procedures in conformance with 36 CFR 800 are complete.
- Determining appropriate mitigation measures and performing all mitigation in conformance with 36 CFR 800.

- Ensuring an archaeologist, retained or employed by any party to facilitate construction operations, will view and document any and all cultural items discovered during excavation if an adverse effect determination has been made.
- Ensuring that if removal of ancient human remains is necessary, the archaeologist will remove the entire body and that unless the Clarks Point Village Council requests further study of the remains, tests upon or photographs of any ancient human remains will not occur unless specific, separate Agreements have been made with the Clarks Point Village Council.
- Contacting local law enforcement officials if a modern human burial is discovered to determine if a criminal act can be identified. If the burial is from an archaeological context, the burial will be treated as archaeological remains and need not be treated as a scene of crime.
- Acknowledging that the Clarks Point Village Council assumes full responsibility for any and all cultural items discovered during excavation on all but private lands.
- Acknowledging that the Clarks Point Village Council reserves the inherent right to determine the appropriate disposition of any and all cultural items discovered during excavation on all but private lands.
- Acknowledging that the inherent claims or rights of the Clarks Point Village Council are not diminished by the fact that the land is under ownership by another party.
- Ensuring that if a discovery is made on Federal lands, Indian Allotment lands, or lands not yet conveyed to the Village or Regional Corporation, parties to facility construction operations shall comply with NAGPRA if appropriate.
- Acknowledging that all other inherent rights and claims regarding any and all cultural items discovered on any lands other than private lands during excavation for or in support of facility construction not expressly covered in these responsibilities are reserved to the Clarks Point Village Council alone.

G. PROVISIONS FOR PROJECT COMPLETION

The following sections from the ANTHC, DEHE, Cooperative Project Agreement Provisions Manual for Health Facilities Projects (Orange Book), dated June 2003, are incorporated into this Agreement by reference. For the purposes of this Agreement, all references to "Local Participant" shall mean the Village of Clarks Point.

- Section 1, "Provisions for All Cooperative Project Agreements"
- Section 2, "Provisions for ANTHC Management of Local Force Account Labor"
- Section 5, "Insurance and Indemnification Provisions for Force Account Labor Projects Managed by ANTHC or the Local Participant"
- Section 6, "Assurances for All Construction Programs" (Standard Form 424D)

The following federal provisions apply to this project:

- 15 CFR 24, Uniform Admin Requirements for Grants/Cooperative Agreements to State and Local Governments
[<www.access.gpo.gov/nara/cfr/waisidx_99/15cfr24_99.html>](http://www.access.gpo.gov/nara/cfr/waisidx_99/15cfr24_99.html)
(applies to local or tribal government)
- OMB Circular A-87, Cost Principles for State and Local Governments and Indian Tribal Governments [<www.whitehouse.gov/OMB/circulars/a087/a087-all.html>](http://www.whitehouse.gov/OMB/circulars/a087/a087-all.html)
(applies to local or tribal government)
- OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations [<www.whitehouse.gov/OMB/circulars/a133/a133.html>](http://www.whitehouse.gov/OMB/circulars/a133/a133.html)
(applies to all Agreements)
- 15 CFR, Part 14, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, Other Nonprofit, and Commercial Organizations
[<www.access.gpo.gov/nara/cfr/waisidx_99/15cfr14_99.html>](http://www.access.gpo.gov/nara/cfr/waisidx_99/15cfr14_99.html)
(applies to non-profits)
- OMB Circular A-122, Cost Principles for Nonprofit Organizations
[<www.whitehouse.gov/OMB/circulars/a122/a122.html>](http://www.whitehouse.gov/OMB/circulars/a122/a122.html) (applies to non-profits)

This document constitutes Amendment No. 2 to the CPA to complete design studies and construction planning for a new health clinic in the Village of Clarks Point, Alaska. All other sections of the original CPA and/or Amendment No. 1 remain in effect as agreed upon and executed.

Anchorage, Alaska 99508-3440

MEMORANDUM

DATE: November 2005

FROM: Heritage and Environmental Consultant

SUBJECT: Village of Clarks Point, Final Environmental Review
Project No. AN 04-G92

TO: FOR THE RECORD

Based upon the scope for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) has been completed. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. The Environmental Review Report has been completed and reviewed with respect to the proposed sanitation facilities construction and is attached to this Memorandum.

FINDINGS

This environmental review finds that no further environmental investigation is necessary. All actions involving construction have been reviewed and no extraordinary or exceptional circumstances were found to exist. It is therefore recommended that the Denali Commission approves a determination of eligibility for categorical exclusion from the requirement to conduct further environmental evaluation for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of health and sanitation facility projects that do not have a significant impact on the environment, as determined by the attached "Environmental Review and Documentation."

BACKGROUND

Clark's Point is located on a spit on the northeastern shore of Nushagak Bay, 15 miles from Dillingham and 337 miles southwest of Anchorage. It lies at approximately 58.844170° North Latitude and -158.55083° West Longitude. (Sec. 25, T015S, R056W, Seward Meridian.)

ENVIRONMENTAL RESOURCES OF IMPORTANCE

This project will construct a new health facility at Clarks Point, Alaska. The area received an archaeological survey during the 2004 field season, and no historic properties were discovered. This finding will be shared with the State Historic Preservation Officer upon receipt for concurrence. The clinic will be constructed within community boundaries and it is unlikely this will result in adverse impacts on any threatened or endangered species habitat. There are no other environmental resources of importance identified that might sustain direct adverse impacts as a result of project construction.

SCOPE OF WORK

This Amendment expands the scope of work to include clinic construction. Activities include site preparation, materials and equipment, construction, and labor.

(Amendment No. 1 cited the construction phase of this project as ANTHC Project No. AN 04-GB8; that was incorrect. This Amendment No. 2 initiates the construction phase.)

PROPOSED MITIGATION MEASURES

Given the environmental review performed by the ANTHC, no mitigation activities are proposed for this project.

SUMMARY

In the event that the ANTHC becomes aware of any other unforeseen discovery, which could change the environmental determination, the appropriate authority will be notified to develop an acceptable course of action prior to resuming construction activities in the impacted area.

With the scope of work outlined for this project, the ANTHC has completed the environmental review. If the scope of work is changed in the future, then the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.

Chris Campbell

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Page 1 of 8

Facility: Health Clinic
Project Description: Construction

Location: Clarks Point, Alaska

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
PART I.		
1. Does this project include construction or lease of new facilities which will total more than 1080 square meters (12,000 square feet)? (Include portable facilities and trailers.)	No	Printed Materials- The proposed health facility in Clarks Point, Alaska will total less than 12,000 square feet.
2. Does this project involve the construction or lease of new facilities on more than 2 hectares (.5 acres) of land?	No	Printed Materials – Less than 2 hectares (.5 acres) will be involved in the proposed Clarks Point, Alaska facility.
3. Historic Preservation: Will the proposed project construction or renovation adversely affect properties listed, or eligible for listing, on the National Register of Historic places (buildings, archaeological sites, objects of significance)?	No	Printed Materials – The State Historic Preservation Officer wrote a letter concurring with the proposed Clarks Point, Alaska Clinic in November 2004. This letter is attached as supporting documentation. No historic properties eligible or on the National Register of Historic Places will be adversely impacted by the construction of the health in Clarks Point, Alaska. The State Historic Preservation Officer concurred with this finding on October 14, 2004.
		If a property is more than 50 years old and no determination of eligibility was done, the agency <u>must</u> evaluate and nominate the facility. Contact the State Historic Preservation Officer (SHPO) and document the contact and SHPO response.

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
4. Will the proposed project construction or renovation violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that generate those items include renovations, new construction, air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, medical centers, etc. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	No	Printed Materials – The proposed project in Clarks Point, Alaska does not violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes.
5. Will the project result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or Local) law or requirements imposed for protection of the environment or public health and safety?	No	Printed Materials – The project will be in compliance with all applicable laws and requirements and will have the appropriated regulatory approvals.
REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.1., K.2. 6. Will the proposed project or construction or renovation result in a conflict with existing or proposed state, federal and local land use plans?	No	Printed Materials – The project site is not zoned. The Clarks Point, Alaska Traditional Council have identified this project as an essential community facility.

Location: Clarks Point, Alaska

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
7. Is the project significantly greater in scope than normal projects for the area or does the project have significant unusual characteristics?	No	Printed Materials – The proposed clinic project in Clarks Point, Alaska is typical in scope in comparison with ANTHC health facility improvement projects in rural Alaska and has no unusual, significant characteristics. REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.11.
8. Does the project have significant adverse direct or indirect effects on parklands, other public lands, or areas of recognized scenic or recreational value?	No	Printed Materials – Alaska Wildlife Refuges, U.S. Fish and Wildlife Service. The community of Clarks Point, Alaska is not located in the vicinity of parklands, other public lands, or areas of recognized scenic or recreational value. REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.5.
9. Is there a controversy with respect to environmental effects of the project based on reasonable and substantial issues?	No	Signature of the CPA denotes that all parties are aware of historic preservation issues and no controversy exists. REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.3.
10. Does the project establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects? (cumulative impact based on current information)	No	Printed Materials– The health facility construction project in Clarks Point, Alaska is not anticipated to result in any cumulative impacts that will result in degradation of environmental concerns as outlined in NEPA. REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.6.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

 Project Description: Construction

Location: Clarks Point, Alaska

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
11. Does the project involve the use, transfer or lease of real property which has been used as a storage for hazardous waste and/or petroleum products or their derivatives for more than one year?	No	Personal contact -- The project engineer, in consultation with the Tribe of Clarks Point, Alaska confirms that real property associated with the health facility project in Clarks Point, Alaska has not been associated with the use, transfer, or lease as storage for hazardous waste for more than one year.
REFERENCE: Comprehensive Environmental Response, Compensation and Liability Act of 1980/FR Vol. 58, No.3, K.10.		
PART II		
12. Will the proposed project construction or renovation require major sedimentation and erosion control measures? (e.g.; construction or expansion of a parking lot)	No	Printed Material- The proposed health facility project will be constructed in an area which does not affect soil erosion or sedimentation.
13. Will the proposed project construction or renovation adversely affect community noise levels?	No	Printed Material – This project will not affect community noise levels because no blasting will occur and heavy equipment use will be limited to the daytime.
14. Will the proposed project construction or renovation adversely affect community air pollution?	No	Printed Material – The proposed health facility project in Clarks Point, Alaska will not adversely affect air pollution. The project is located in an unclassified area with no identified air pollution problems and it will have minor to no effect on local air quality.
15. Will the proposed project construction or renovation create a need for additional capacity in educational facilities?	No	Printed materials- The proposed health facility project at Clarks Point, Alaska will not affect any need for additional capacity in educational facilities.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATIONFacility: Health Clinic
Project Description: ConstructionLocation: Clarks Point, Alaska

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
16. Will the proposed project construction or renovation create a need for additional capacity in health care facilities and for health care services?	No	Printed Materials – The proposed health facility project is not anticipated to create a need for additional capacity in health care facilities and for health care services because it will not affect community population levels.
17. Will the proposed project construction or renovation create a need for additional energy supply or generation?	No	Printed materials – Due to improved energy efficiency, the proposed health facility project is expected to use less energy than the one to be replaced.
18. Will the proposed project construction or renovation create a need for additional capacity at solid waste disposal facilities?	No	Printed materials – The proposed health facility project will not generate any additional sewage than the existing facility because it will not affect community population levels.
19. Will the proposed project construction or renovation create a need for additional capacity at wastewater treatment facilities?	No	Printed materials – The proposed health facility project will not generate any additional solid waste than at present in Clarks Point, Alaska, and will not affect the capacity of the community's wastewater treatment facilities.
20. Will the proposed project construction or renovation create a need for/or require a storm water control plan? (e.g.; parking lots. Contact local or state authorities, or EPA to determine if your facility or project is in a regulated storm water area.)	No	Printed materials – The proposed health facility project will be extremely limited in overall surface area, and is not expected to significantly affect storm water control in Clarks Point, Alaska. Storm drainage will be directed away from the building and parking areas. The project is outside of a regulated storm water area.

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
21. Will the proposed project construction or renovation create a need for additional drinking water supply?	No	Printed materials – The proposed health facility project will not create a need for additional drinking water supply as the same population will continue to be served as previously.
22. Will the proposed project construction or renovation create a need for additional capacity in transportation systems?	No	Printed materials – The proposed health facility project in Clarks Point, Alaska will serve the same population in a community lacking a transportation system.
23. Are there other considerations about the proposed project construction or renovation that could adversely affect the environment and/or public health and safety?	No	Printed materials – The proposed health facility project in Clarks Point, Alaska is not anticipated to adversely affect the environment and/or public health and safety. No toxic building materials will be utilized.
PART III		
24. <u>SAFE DRINKING WATER ACT</u> : Will the project impact a sole source aquifer?	No	Personal Contact – Letter on file from Michael Crotteau, Alaska Department of Environmental Conservation August 1999.
REFERENCE: Safe Drinking Water Act of 1974/FR Vol. 58, No.3, K.5.		
25. <u>FLOODPLAINS</u> : Will the project involve construction in a floodplain (except for actions excluded as a class) or impact floodplain development?	No	Although Clarks Point, Alaska lies in a floodplain, and health facility construction is in a floodplain, it will be conducted in accordance with class action requirements (IHS Environmental Review Manual 2.2.3:18) and work will not adversely affect Floodplain development. There are no flood plain maps available for the community and the community does not participate in the National Flood Insurance Program.
REFERENCE: Executive Order 11988 and related Acts and Executive Orders/FR Vol.58, No.3, K.5., K.9.

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
26. <u>WETLANDS/WATER RESOURCES:</u> Will the project adversely affect wetlands/water resources or will there be construction in wetlands, except in conformance with a Corps of Engineers Section 404 Permit?	No	Printed materials – All construction will be done upon consultation with the US Army Corps of Engineers (COE) and in conformance with any requisite COE permit.
REFERENCE: Executive Order 11990 and related Acts and Executive Orders/FR Vol. 58, No.3, K.5.		
27. <u>Coastal Zone Management:</u> Will the proposed project construction or renovation directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan? (Each coastal state should have a state office to manage its coastal zone development and use. All federal projects in the coastal zone must comply with the management plan.)	No	Printed Materials – The project is consistent with the Alaska Coastal Management Plan. This project is within the Bristol Bay CRSA Coastal Zone.
28. <u>WILD AND SCENIC RIVERS ACT:</u> Is the project a "Water Resources Project" which will impact a wild, scenic or recreational river area and create conditions inconsistent with the character of the river?	No	Printed Materials – <i>Wild and Scenic Rivers (Alaska) List</i> , National Wild and Scenic Rivers System, National Parks Service.
REFERENCE: Wild and Scenic Rivers Act of 1968 and related Executive Actions/FR Vol. 58, No.3, K.5.		The community of Clarks Point, Alaska is not located on a Wild or Scenic River.

29. FARM LAND PROTECTION ACT: Will the project convert significant agricultural lands to non-agricultural uses?	No	Personal Contact – Letter on file from Steve Tickett, Alaska Department of Natural Resources, July 1999. The community of Clarks Point, Alaska is not located within an identified significant agricultural area.
REFERENCE: Farmland Protection Policy Act of 1981 and related Acts and Executive Orders/FR Vol. 58, No.3, K.5.		
30. WILDERNESS ACT: Will the project adversely impact a wilderness area?	No	Printed Materials – Great Outdoor Recreation Pages, Alaska Wilderness Area List. The community of Clarks Point, Alaska is not located in a designated wilderness area.
REFERENCE: Wilderness Act of 1964/FR Vol. 58, No.3, K.5.		
31. ENDANGERED SPECIES ACT: Is the project likely to adversely affect a species listed on the Federal List of Endangered or Threatened Species or the specific critical habitat?	No	Printed Materials – <i>Endangered, threatened and candidate species in Alaska</i> , U.S. Fish and Wildlife Service, December 2000. This project will not be taking place in the vicinity of a critical habitat of an endangered species.
REFERENCE: Endangered Species Act of 1973, as amended/FR Vol. 58, No.3, K.8.		

I certify that to the best of my knowledge and ability the information presented herein is true and correct.
